

Cloud Computing Policy

This policy sets out the terms on which you may access 'Cloud Computing Services' provided by the school, including but not limited to; Google Apps for Education, blogs, LearnLink Office 365 and or LearnLink Office 365 Pro Plus, Noteflight, Adobe Creative Cloud, Freshdesk, Trimble Sketchup, Naplan, SACE, Musitian and Auralia.

Wirreanda Secondary School reserves the right to sign-up students to other cloud based services for educational purposes. Cloud computing involves the use of internet-based services (rather than a PC or school server) for functions such as email, blogs and data storage.

The Parent/Caregiver/Legal Guardian and the Student will need to sign and return the ICT and Cyber-Safety Use Agreement before the student will be allowed to access the Cloud Computing Services.

By signing the ICT and Cyber-Safety Use Agreement, you (including parents/caregiver/legal guardians in the case of students under 18 years) are agreeing to the terms set out in this Use Agreement, including the consequences of any breach of the terms.

Wirreanda Secondary School will use personal information, such as the student's first name and last name to sign up to Cloud Computing Services. The services accessed by the students will have educational value and will be used as instructed by Wirreanda Secondary School staff.

1. Privacy Consent

Information that you transfer or store using the school's Cloud Computing Services may be stored by their respective service providers in the United States of America, or such other countries as the cloud service providers may decide. By using the school's Cloud Computing Services, you are consenting to the transfer to, and processing and storage of your information in, such overseas location, even though the privacy laws in those countries may be different to the privacy laws in Australia.

2. Acceptable Use

You agree that you will not use the Cloud Computing Services to do anything that is against the law, and that you will not:

- give your account password to anyone else;
- access (or try to access) anyone else's account, or try to defeat any security controls; send or help to send unsolicited bulk email (spam);
- publish, send or knowingly access material that is pornographic, hurtful or offensive to other people, including material that is defamatory, threatening or discriminatory;
- knowingly create or send any viruses, worms, Trojan horses or anything of a similar nature;
- disable, change, reverse-engineer or otherwise interfere with the Cloud Computing Services.

3. Monitoring

You agree that ICT Support Staff responsible for ICT systems will have the ability to (and may at any time) monitor your use of the Cloud Computing Services, including accessing and monitoring any data that you have sent or stored using the Cloud Computing Services, to ensure that you are using the Cloud Computing Services appropriately.

If you notice a problem with the Cloud Computing Services, or if you think that someone is trying to access your account (or someone else's account), you agree that you will tell the school's ICT Support Staff immediately.

4. Suspension or termination of use and other consequences

If there is an emergency security issue, or if you are suspected of making inappropriate use of the Cloud Computing Services, your access to the Cloud Computing Services may be suspended or terminated. This means that you might not be able to access your school's ICT services, including your school email account. If you are found to have made inappropriate use of the Cloud Computing Services, the school may also apply other disciplinary consequences.
